## PROFESSIONAL SUMMARY

Front-End Web Developer with 1 year of experience and Certified MERN Stack Developer credentials. Completed a 4.5-month internship focused on React.js, MongoDB, Express.js, and Node.js. Proven ability to write clean, maintainable code using JavaScript and modern frameworks. Successfully implemented Redux for state management, reducing application size by 25%. Optimized performance and deployment practices, resulting in a 15% improvement in development productivity. Passionate about building responsive, user-friendly web applications and ready to contribute to your organization's growth.

## SKILLS AND ACCOMPLISHMENTS

- **Programming Languages:** C/C++ | Java | JavaScript
- **Frontend Development:** React JS | HTML5 | CSS3 | Bootstrap | Tailwind | Redux | ES6
- **Version Control & Collaboration:** Git | GitHub
- **Web Design & Development:** Web Designing | Web Development | REST API | JSON | HTTP
- **Code Quality:** Prettier
- **Problem-Solving**
- **Other Skills:** Agile Development - Scrum | NPM | Jira

## WORK EXPERIENCE

**WEB DEVELOPER | Sahfar, Kolkata (02/2024 – 01 /2025)**

### Role & Responsibilities:

- Designed, developed, and maintained 10+ responsive websites and web apps, ensuring 100% cross-browser and cross-device compatibility.
- Implemented Redux in React-based projects to streamline state management, reducing app bundle size by 25%.
- Optimized page load speeds by 30% through code splitting, lazy loading, and efficient image handling.
- **Collaborated with UI/UX designers and back-end developers** to deliver seamless, responsive user experiences, resulting in a **15% increase in user session duration** and a **25% reduction in bounce rate**.
- **Integrated RESTful APIs and third-party services**, such as payment gateways and authentication tools, boost website functionality and contribute to a **30% faster feature rollout cycle**.
- **Applied version control using Git and GitHub**, managing over **200+ commits across multiple repositories** and reducing development conflicts by **40% through structured branching and pull request reviews**.
- Conducted manual and automated testing to identify and resolve UI/UX bugs, increasing user satisfaction by 20%.

## Project Work

### LeafCraft – Plant E-commerce Website

**Tech Stack:** React, Bootstrap 5, Context API, Figma, Remix Icon, Font Awesome, Bootstrap Icons

**Live Demo:** <https://leafcraft.netlify.app/> | **GitHub:** <https://github.com/suvadipmajhi1997/LeafCraftt>

- Built a fully functional and responsive plant e-commerce website as a personal project to apply front-end development skills.
- Implemented **wishlist** and **cart functionality** using **React Context API** for efficient state management without prop drilling.
- Designed a clean and modern UI inspired by **Figma**, and enhanced it using **Remix Icon**, **Font Awesome**, and **Bootstrap Icons**.
- Optimized for desktop, tablet, and mobile devices; additional features and enhancements in progress.

## EDUCATION

BE in Information Technology Graduation Year (2022)

Degree: Bachelor of Engineering

Burdwan University, West Bengal

## CERTIFICATIONS

- Completed the MERN Stack Web Development Bootcamp from CodeHelp.
- Achieved certification in JavaScript through an intensive course.
- Obtained credentials for the Ultimate Guide to Front-End Web Development.
- Certified in Java via courses offered on the Udemy platform.
